

## Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

## MEXICO.

*Report from Veracruz—Inspection of vessels—Yellow fever case and death at Paraje Nuevo.*

Acting Assistant Surgeon Frick reports, March 23, as follows:

Week ended March 23, 1907:

March 17. Inspected the British steamship *Cayo Gitano*, bound for New Orleans, with 31 in the crew; vessel sails in ballast. Inspected the Norwegian steamship *City of Mexico*, via Tampico, with 19 in the crew and 6 passengers; vessel sails in general cargo.

March 18. Inspected the Norwegian steamship *Galveston*, bound for Texas City via Progreso, with 25 in the crew and 2 passengers; vessel sails in general cargo.

March 19. Inspected the American schooner *Kate Feore*, bound for Mobile, with 8 in the crew; vessel sails in ballast. At the time of inspection and departure of the *Feore* the mate was found to be sick. This fact, with history of his illness, as far as obtainable, with the opinion, "trouble probably malarial," was indorsed on the bill of health. Inspected the British steamship *Westhampton*, bound for a port via Manzanillo, Cuba, with 23 in the crew.
